

HEALTH, SAFETY, ENVIRONMENT & TRANSPORTATION POLICY

PURE ENERGY SERVICES PARTNERSHIP is committed to operating an effective Health, Safety, Environment & Transportation Management System and will conduct its activities in a manner that safeguards employees, clients, and visitors, as well as the public at large.

Management will provide and maintain a safe work environment with proper policies, procedures, training, equipment, trucking/transportation, and emergency response procedures in accordance with all company standards and applicable government regulations.

All Company personnel and sub-contractors are responsible for following applicable regulations, safety rules, safe work practices, and participating and performing every job or task in the safest manner possible.

By adhering to the spirit and intent of your/our HSE&T program, we will be taking yet another step in our 'Superior Value' operating system of excellence contributing to the overall success of our organization.
